

EXTRACT SYSTEM

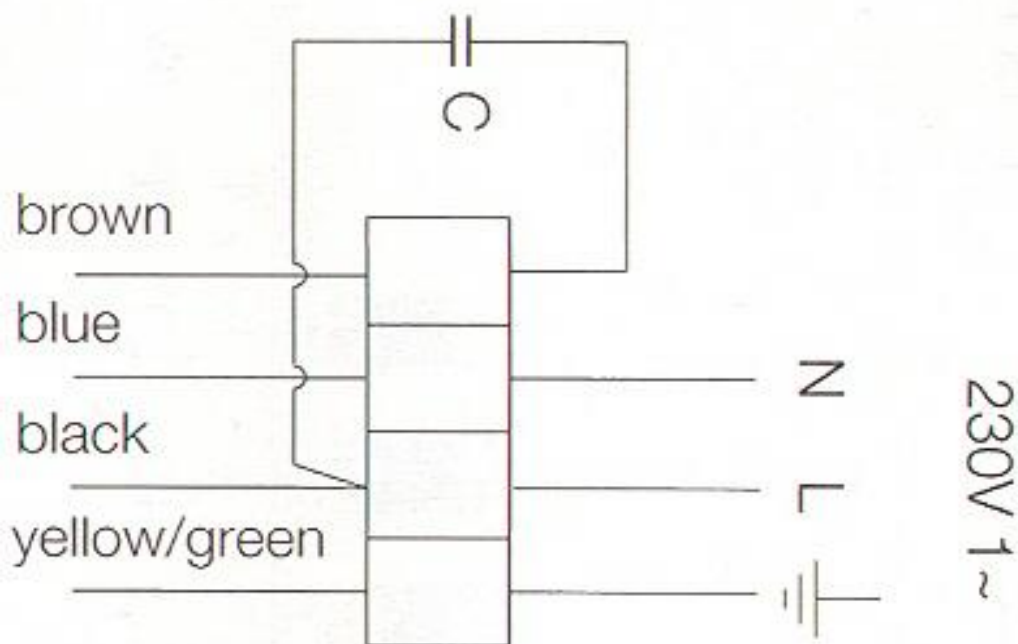

GENERAL INFORMATION

Chad-O-Chef Extractors are designed to extract the smoke produced by Chad-O-Chef Gas grill products only. These systems are not designed for commercial use or for use with charcoal or wood burning systems. Systems that deviate from Chad-O-Chef recommendation cannot be covered by guarantee.

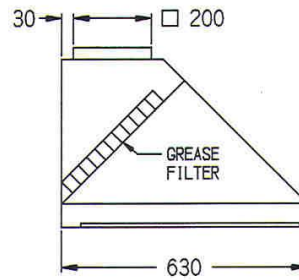

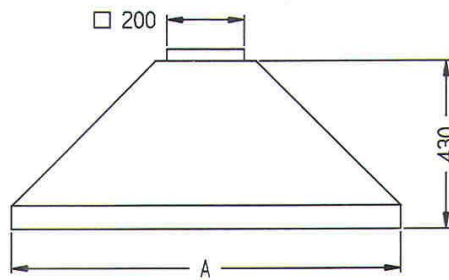

- Hoods must be mounted between 600mm and 700mm above the Chad-O-Chef grill.
- The wiring diagram must be followed.
- The grease filter must remain in-place in the hood at all times while grill is in use.
- The extract fan must be in operation during grilling, as well as 5-7 minutes after grill has ended.
- Grease filter and tray must be cleaned periodically.
